

Docket Nos. 50-335
50-389
50-250
50-251

JUL 29 1987

Mr. C. O. Woody
Group Vice President
Nuclear Energy
Florida Power & Light Company
P. O. Box 14000
Juno Beach, FL 33408

Dear Mr. Woody:

This is in response to your letter (L-87-234) of June 2, 1987, which requested a temporary exemption to the requirement of 10 CFR 73.57.

On June 12, 1987 the NRC sent Generic Letter 87-10 to all power reactor licensees which authorized use of a temporary access authorization program until final screening policy is established. We believe that Generic Letter 87-10 satisfies your need and therefore will not process your request.

Should you have any questions, please contact Mr. Robert Skelton at (301)492-4533.

Sincerely,

Lester S. Rubenstein, Director
Project Directorate II-2
Division of Reactor Projects I/II
Office of Nuclear Reactor Regulation

10-10-10

1. The first part of the document
 discusses the general principles
 of the system and its objectives.
 It outlines the scope of the
 project and the roles of the
 various participants involved.
 The document is intended to
 provide a clear and concise
 overview of the system and its
 operation.

2. The second part of the document
 describes the technical details
 of the system, including the
 hardware and software
 components. It provides a
 detailed description of the
 system architecture and the
 data flow. This part of the
 document is intended to
 provide a comprehensive
 overview of the system's
 technical aspects.

3. The third part of the document
 discusses the implementation
 of the system, including the
 installation and testing
 procedures. It provides a
 detailed description of the
 system's performance and the
 results of the testing. This
 part of the document is
 intended to provide a
 comprehensive overview of
 the system's implementation.

4. The fourth part of the document
 discusses the future plans for
 the system, including the
 development of new features
 and the expansion of the
 system. It provides a
 detailed description of the
 system's future development
 and the expected results. This
 part of the document is
 intended to provide a
 comprehensive overview of
 the system's future plans.
