**LICENSEE:** Florida Power and Light Company

**FACILITY:** Turkey Point Units 3 and 4

**SUBJECT:** SUMMARY OF MEETING HELD WITH FLORIDA POWER AND  
LIGHT COMPANY (FP&L) ON MARCH 29 THROUGH 31, 1988  
REGARDING TECHNICAL SPECIFICATIONS (ELECTRICAL)  
CONVERSION

**REFERENCE:** TAC Numbers 65816 and 65817

A meeting was held at the Turkey Point Site in Dade County, Florida on March 29-31, 1988 with representatives of Florida Power and Light Company (FP&L) to discuss details of their Technical Specifications Revision Project. This project is a voluntary effort by FP&L to upgrade their approved Technical Specifications (TS) towards Standard TS to the extent practical. An initial proposal was submitted by FP&L to the NRC staff on September 29, 1986, followed by the electrical portion on November 28, 1986, with the expectation that detailed discussions with the staff would result in substantial changes to the proposal, and therefore result in a completely revised submittal for NRC staff review. Previous meetings on this subject were held November 18, 1986, June 17 and 18, 1987, January 9, 1988 and February 23, 1988. This recent meeting focussed on the TS topics related to Electrical Power Systems. As a result of the detailed technical discussions, the NRC staff intends to prepare a draft version of the TS for wider detailed review by the NRC and the licensee staff.

An attendance list from the meeting is enclosed.

Gordon E. Edison, Sr. Project Manager  
Project Directorate II-2  
Division of Reactor Projects-I/II  
Office of Nuclear Reactor Regulation
