Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-250/87-38, 50-251/87-38,
50-250/87-47, AND 50-251/87-47)

This will acknowledge receipt of your letters dated March 14 and March 29, 1988, and your check for \$150,000 in payment for the civil penalty imposed by the NRC in a letter dated February 11, 1988.

We are concerned both with the accuracy and the substance of your response. Of the first concern, we note that there were a number of inaccuracies in your letter of March 14, 1988. During our meeting with FP&L management on April 21, 1988, we discussed the fact that the internal review of the matter by FP&L was insufficient. While any inaccurate information is cause for concern, the incorrect information concerning the implementation of a preventive maintenance program of locks is of particular concern. Accordingly, a violation of 10 CFR 50.9 is being issued. Elements to be included in your response are described in the enclosed Notice of Violation.

On the matter of substance, we find your corrective action of providing FP&L supervision of the contractor guard force on a 24-hour basis "by the end of the year" to be inadequate in that it is not timely. As discussed with you in early April and again on April 21, we are concerned with your decision to delay providing this supervision since we consider it to be an essential step in providing on-site guidance, supervision, and regulatory sensitivity to the security force operation. We understand that you have taken steps to provide a more timely completion. Please provide a supplementary response, within 30 days of the date of this letter, that specifies the steps taken and the present completion date.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

We appreciate your cooperation in this matter.

Sincerely,
