

NOTICE OF VIOLATION

Florida Power & Light Company
Turkey Point 1 and 2

Docket Nos. 50-250, 50-251
License Nos. DPR-31, DPR-41

Based on NRC review of Florida Power & Light Company's March 14, 1988 and March 29, 1988 responses to a Notice of Violation and Proposed Imposition of Civil Penalty, a violation of NRC requirements was identified. In accordance with the "General Statement and Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1988), the violation is listed below.

10 CFR 50.9 requires that information provided to the Commission by a licensee shall be complete and accurate in all material respects.

Contrary to the above, Florida Power & Light Company's March 14, 1988 response to a Notice of Violation and Proposed Imposition of Civil Penalty, issued February 11, 1988, stated that corrective actions concerning the 7-day operability check of locks and a routine preventive maintenance program had been completed by March 12, 1987. In a subsequent response, dated March 29, 1988, Florida Power and Light said that the preventive maintenance program for the locks had not been accomplished until March 28, 1988.

This is a Severity Level IV violation (Supplement VII).

Pursuant to the provisions of 10 CFR 2.201, Florida Power & Light is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate reply is not received within the time specified in this Notice, an order may be issued to show cause why the license should not be modified, suspended, or revoked or why such other action as may be proper should not be taken.

FOR THE NUCLEAR REGULATORY COMMISSION

ORIGINAL SIGNED
J. NELSON GRACE

J. Nelson Grace
Regional Administrator
