Juno Beach, FL 33408

Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-250/88-30 AND 50-251/88-30)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by R. C. Butcher on September 26, 1988 through October 28, 1988. The inspection included a review of activities authorized for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selected examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violations, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation.

Inspector Followup Item (IFI) 88-30-05, as described in the enclosed inspection report, is of significant concern to the NRC. The NRC realizes that concerns with updating plant drawings were identified in the Independent Management Appraisal (IMA) report and addressed by your response dated August 15, 1988. However, in light of recent configuration control concerns, please give particular attention in resolving this problem. The NRC emphasizes the importance of plant drawing accuracy for the safe operation and maintenance of the plant.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosure will be placed in the NRC Public Document Room.

The responses directed by this letter and its enclosures are not subject to the clearance procedures of the Office of Management and Budget as required by the Paperwork Reduction Act of 1980, PL 96-511.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Luis A. Reyes, Director
Division of Reactor Projects
