

ENCLOSURE 1

NOTICE OF VIOLATION

Florida Power Company
Turkey Point

Docket Nos. 50-250 and 50-251
License Nos. DPR-31 and DPR-41

During the Nuclear Regulatory Commission (NRC) inspection conducted on November 28 - December 2, 1988 and December 19, 1988, a violation of NRC requirements was identified. In accordance with the "General Statement of Policy and Procedure for NRC Enforcement Actions," 10 CFR Part 2, Appendix C (1988), the violation is listed below:

Turkey Point Technical Specification 6.8 states written procedures and administrative policies shall be established and implemented for the Facility Fire Protection Program. Fire Protection Program Procedure O-ADM-016.2, Fire Brigade Program, Section 5.3.1 requires that any fire brigade member not attending the required training be removed from active status and not be assigned to fire brigade duty. The procedure requires each fire brigade member to attend planned meetings every three months.

Contrary to the above, four fire brigade members failed to attend the required planned meeting in second quarter 1988 and were not removed from active status. Consequently, at least one of these four members was assigned to fire brigade duty on twenty shifts during the month of July 1988 when they were ineligible per procedure. In addition, three other brigade members failed to attend their planned meeting within the required three month interval.

This is a Severity Level IV violation (Supplement I).

Pursuant to the provisions of 10 CFR 2.201, Florida Power and Light Company is hereby required to submit a written statement or explanation to the Nuclear Regulatory Commission, ATTN: Document Control Desk, Washington, DC 20555, with a copy to the Regional Administrator, Region II, and a copy to the NRC Resident Inspector, Turkey Point, within 30 days of the date of the letter transmitting this Notice. This reply should be clearly marked as a "Reply to a Notice of Violation" and should include [for each violation]: (1) admission or denial of the violation, (2) the reason for the violation if admitted, (3) the corrective steps which have been taken and the results achieved, (4) the corrective steps which will be taken to avoid further violations, and (5) the date when full compliance will be achieved. Where good cause is shown, consideration will be given to extending the response time. If an adequate
