Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-250/89-02 AND 50-251/89-02

Thank you for your response of March 27, 1989, to our Notice of Violation, issued on February 24, 1989, concerning activities conducted at your Turkey Point facility. We have evaluated your response and found that it meets the requirements of 10 CFR 2.201. However, during the week of April 3, 1989, your staff's capabilities to make prompt classifications were again evaluated by an NRC license examiner. The findings indicated that additional training in classifications was necessary. We understand that, in response to these findings, you are revising the applicable procedure and you are providing additional training to your staff regarding emergency classification. In view of this, we request that you provide a supplemental response to the Notice of Violation outlining the additional corrective actions you have taken and plan to undertake. We will examine the implementation of your corrective actions during future inspections.

We appreciate your cooperation in this matter.

Sincerely,

Stewart D. Ebnetter
Regional Administrator
