Dear Chairman Zech:

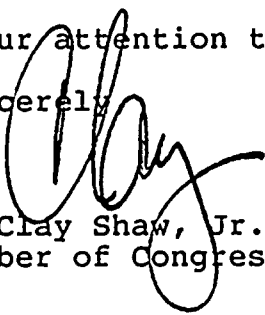

Enclosed please find four letters addressed to Congressman Fascell but referred to me regarding the Turkey Point Plant.

I am aware that the plant has been placed on a list of ten plants located across the country which have not recently met the highest performance standards possible.

I would be appreciative if you could address the concerns of my constituents with regard to the safety of the Turkey Point Plant. Please respond back to me.

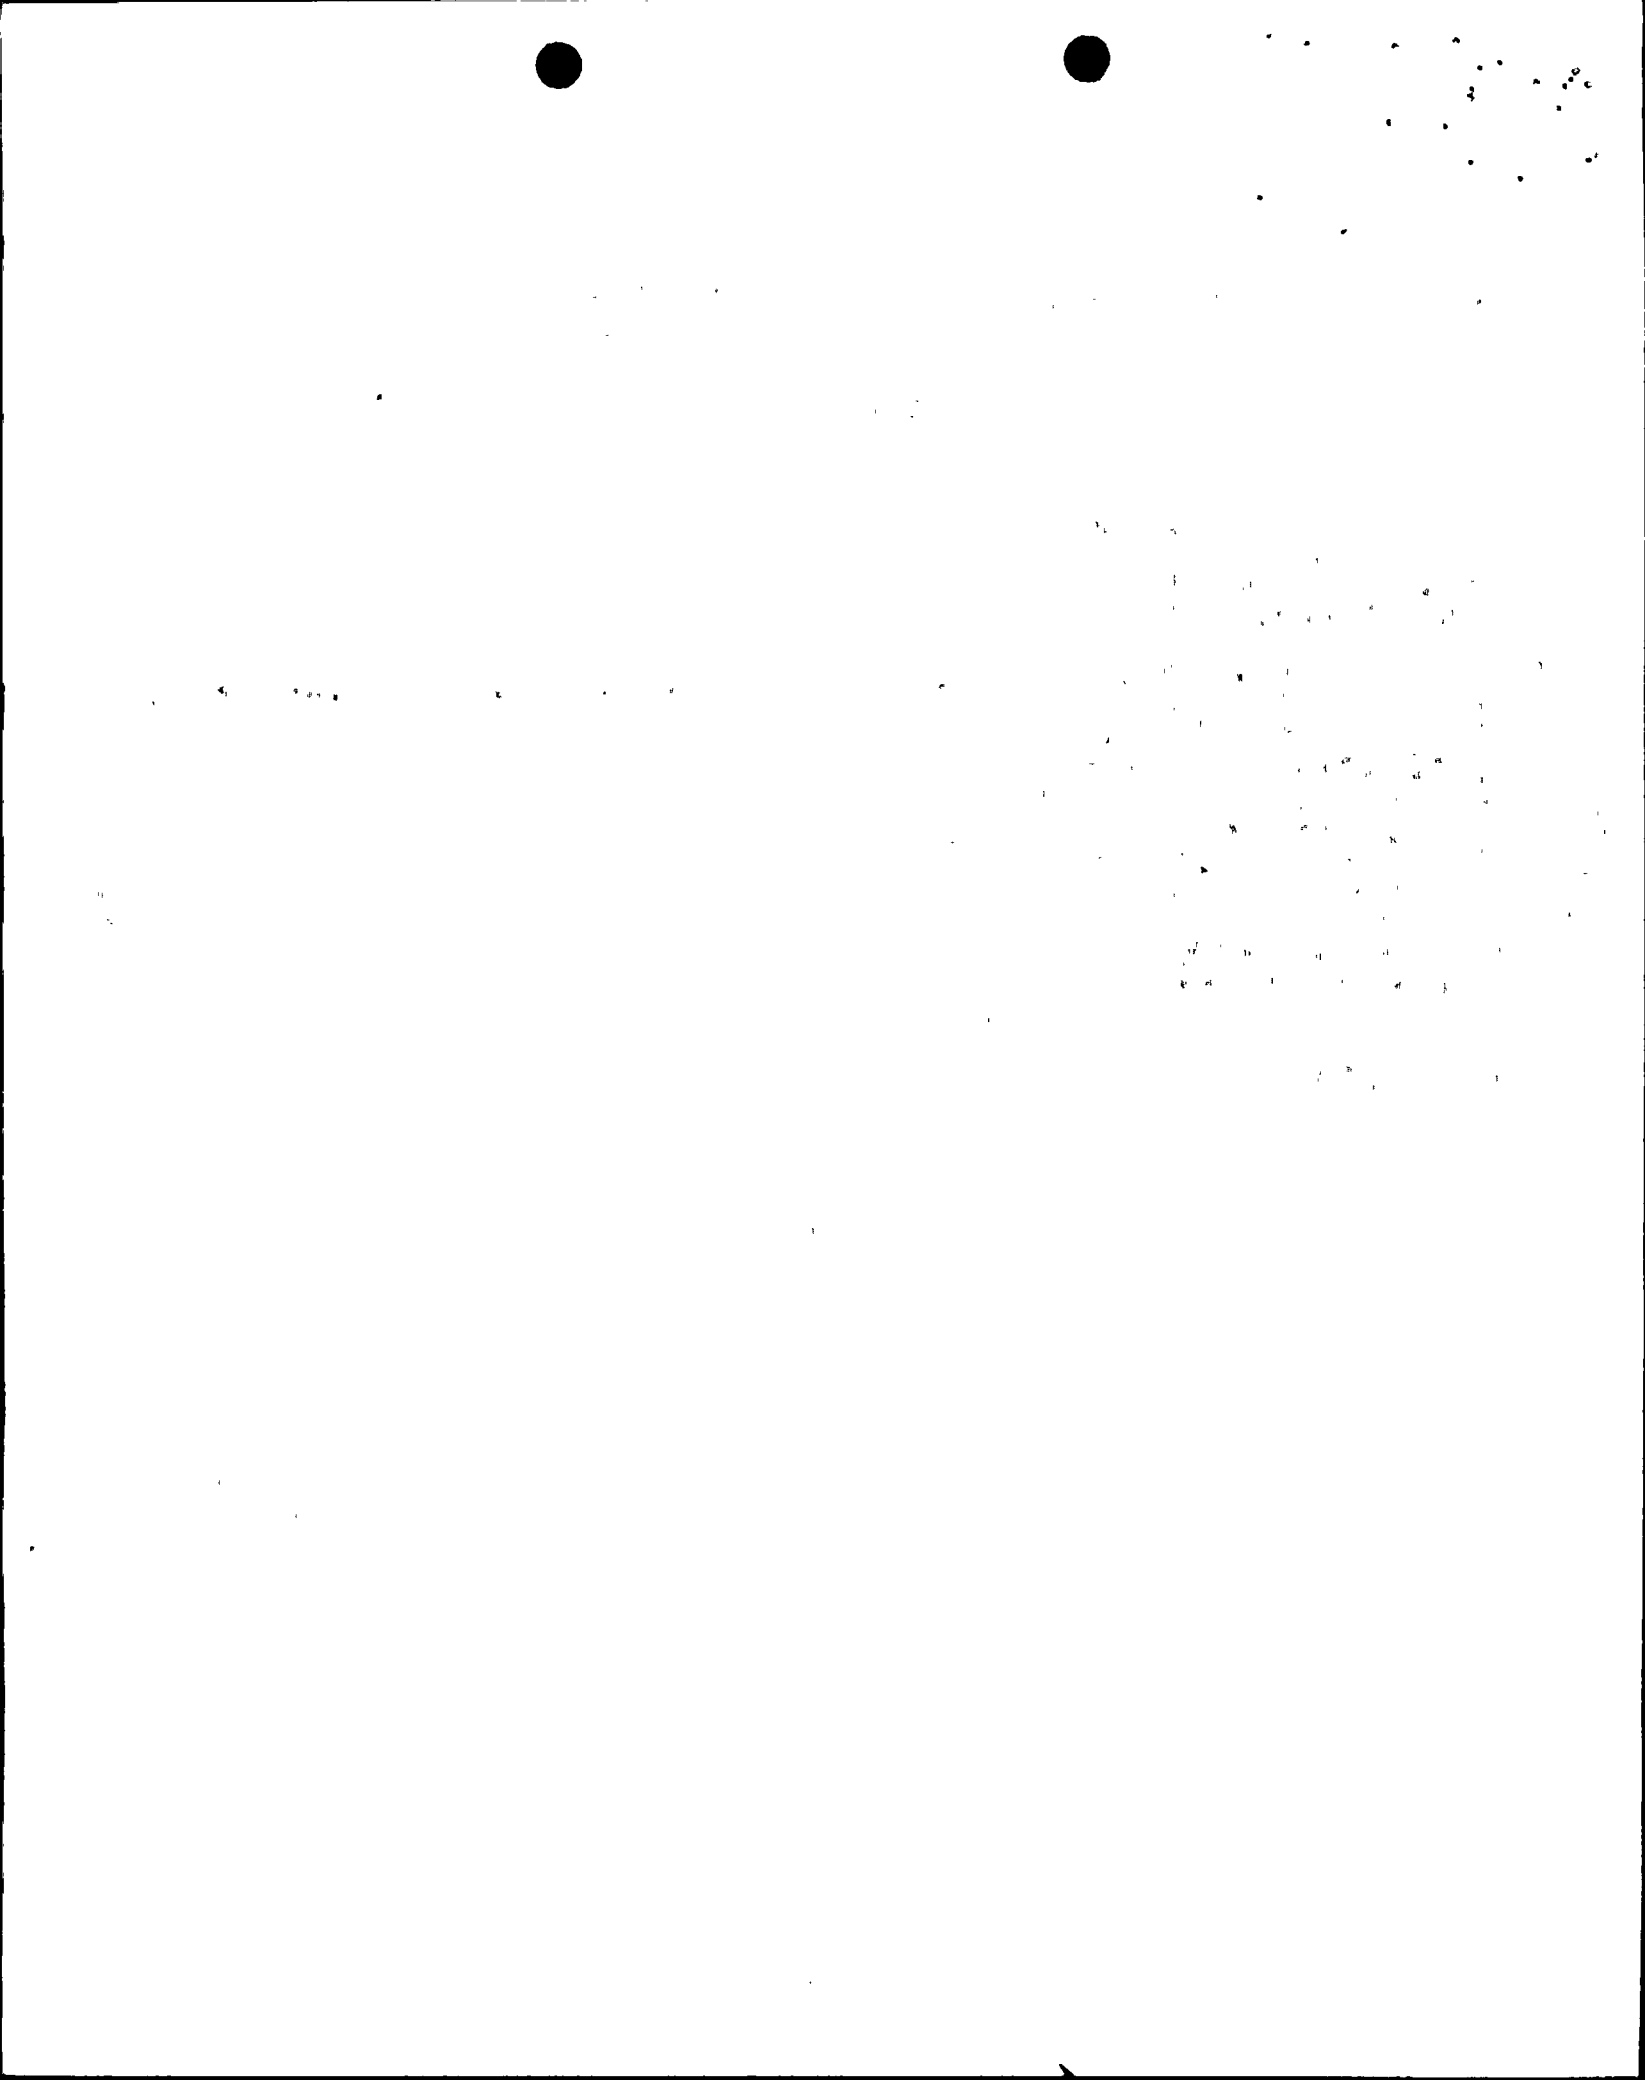

Thank you in advance for your attention to this matter.

Sincerely,

  
E. Clay Shaw, Jr.  
Member of Congress
