Gentlemen:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Semi-Annual Radioactive Effluent Release Report

By letter L-89-75 dated March 2, 1989, Florida Power & Light Company submitted the Radioactive Effluent Release Report for the period of July 1988 through December 1988 for Turkey Point Units 3 and 4, as required by Technical Specification 6.9.4.

That report stated that there had been no Offsite Dose Calculation Manual (ODCM) changes during the reporting period. No changes to the calculational methods contained in the ODCM were instituted during the period, however the ODCM was revised on August 10, 1988, to include a requirement for an annual review, as required by Technical Specification 6.8.2. Page 6 of the report has been revised to reflect this change, and pages A4-1 through A4-4 have been added to include the relevant ODCM pages.

In addition, pages 13 and 20 were revised to correct calculation errors in the "% Annual Limit" in Table 5, "Dose due to Iodine, H-3 and Particulates". Page 16 was revised to correct a typographical error.

A corrected copy of the report is attached. If you have any questions, please contact us.

Very truly yours,

C. O. Woody
Acting Senior Vice President - Nuclear
