Dear Mr. Woody:

SUBJECT: TURKEY POINT UNITS 3 AND 4 - INTEGRATED SCHEDULE CATEGORY A ITEMS

The purpose of this letter is to confirm our approval of a schedular delay in completing two Category A items in your Integrated Schedule (I/S). Verbal approval was given to Dave Chaney of your staff on May 19, 1989.

In your letter (L-89-187) dated May 18, 1989, you provided acceptable bases for a delay in completing I/S Modifications No. 576, "Air Start Motor Upgrade," and No. 1098, "Select System Walkdown NCRs on P&IDs." I/S Mod No. 576 will be delayed about 18 months until the Unit 4 Cycle 13 outage, now scheduled for the fall of 1990. In this regard we note that enhancing the reliability of diesel generators by adding redundant air start motors represents a safety improvement and we encourage such modifications at the earliest practicable time. Completion of I/S Mod No. 1098 will be delayed about 7 months to December 29, 1989.

Regarding delays in Category A items, in the future we would appreciate a more timely submittal of such requests and their bases so that we can better plan our workload in considering their appropriateness.

Sincerely,

Original signed by

Gordon E. Edison, Sr. Project Manager
Project Directorate II-2
Division of Reactor Projects-I/II
Office of Nuclear Reactor Regulation

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for the proper management of the organization's finances and for ensuring transparency in all dealings.

2. The second part of the document outlines the various methods used to collect and analyze data. It describes how this information is used to identify trends, assess risks, and make informed decisions about the future of the organization.

3. The third part of the document focuses on the role of the management team in overseeing the organization's operations. It highlights the need for clear communication, effective planning, and a strong commitment to the organization's mission and values.

4. The fourth part of the document discusses the importance of maintaining a high level of security for all data and information. It outlines the various measures taken to protect against unauthorized access, theft, and other potential threats.

5. The fifth part of the document describes the various ways in which the organization interacts with its stakeholders. It emphasizes the need for open communication, active listening, and a commitment to meeting the needs of all parties involved.

6. The sixth part of the document discusses the importance of maintaining a high level of ethical standards in all dealings. It outlines the various measures taken to ensure that the organization's actions are always in line with its values and principles.

7. The seventh part of the document describes the various ways in which the organization monitors and evaluates its performance. It emphasizes the need for regular reviews, clear metrics, and a commitment to continuous improvement.

8. The eighth part of the document discusses the importance of maintaining a high level of flexibility in all operations. It outlines the various measures taken to ensure that the organization is always prepared to respond to changing circumstances and challenges.

9. The ninth part of the document describes the various ways in which the organization promotes a culture of innovation and creativity. It emphasizes the need for open-mindedness, experimentation, and a commitment to finding new and better ways of doing things.

10. The tenth part of the document discusses the importance of maintaining a high level of accountability in all dealings. It outlines the various measures taken to ensure that everyone in the organization is held responsible for their actions and decisions.
