Gentlemen:

This refers to the routine safety inspection conducted by Messrs. R. L. Higgins and A. D. Morrongiello of this office on June 5 through August 6, 1988, of activities at Quad Cities Nuclear Power Station, Units 1 and 2 authorized by NRC Operating Licenses No. DPR-29 and No. DPR-30, and to the discussion of our findings with Mr. R. L. Bax at the conclusion of the inspection.

The enclosed copy of our inspection report identifies areas examined during the inspection. Within these areas, the inspection consisted of a selective examination of procedures and representative records, observations, and interviews with personnel.

During this inspection, certain of your activities appeared to be in violation of NRC requirements as specified in the enclosed Notice. In addition, an apparent violation, described in paragraph 10(h) of this report, was identified and is being reviewed for potential enforcement action. An enforcement conference is scheduled for August 26, 1988, in the Region III Office with you and other members of your staff regarding the apparent violation. You will be notified by separate correspondence of our decision regarding enforcement action. We are releasing the report at this time for your information. No written response concerning the apparent violation described in paragraph 10(h) is required until you are notified of the proposed enforcement action. However, a written response for the violation described in paragraph 8 is required.

In accordance with 10 CFR 2.790 of the Commission's regulations, a copy of this letter, the enclosed inspection report, and your response to this letter will be placed in the NRC Public Document Room.
