Subject: Topics for Hydro Discussion on Monday

Ray,

Topics for Hydro discussion:

- Placement of “Geologic Mapping of the Clinch River Breeder Reactor Plant Excavations” (Drakulich, 1984) report on docket
- Discussion of excavation geology/hydrogeology described in the above Drakulich (1984) report with respect to proposed CRN site excavation
- From the Drakulich (1984) report references, placement of the E. D’Appolonia Consulting Engineers (three separate 1975 reports), Peck (1977) and Seay (1973) reports in the ERR if available
- TVA’s awareness of USGS’s current modeling effort for ORR and upcoming FY18 modeling efforts that include the area of the CRN site
- Pumping rates

Thanks
Mallecia
