

July 29, 1983

Florida Power and Light Company  
ATTN: Mr. J. L. Williams, Vice President  
of Nuclear Energy Department  
P. O. Box 529100  
Miami, FL 33152

Gentlemen:

SUBJECT: OPERATOR AND SENIOR OPERATOR LICENSING EXAMINATIONS

In a telephone conversation between Mr. Bill Miller, Training Supervisor, and Mr. Art Johnson, License Examiner, Operator Licensing Section, arrangements were made for the administration of the examinations at the Turkey Point facility.

The written examinations are scheduled for the week of September 12, 1983.

In order for us to meet the above schedule, it will be necessary for the facility to furnish the approved reference material discussed in the above mentioned telephone conversation by August 12, 1983. Any delay in receiving this material will result in a delay in administering of the examinations. Our examinations are scheduled far in advance with considerable planning to utilize our present limited examiner manpower and to meet the examination date requested by the various facilities. Therefore, missing the August 12, 1983, deadline even by a few days, will likely result in a long delay, since it would not be possible to reschedule examinations at other facilities. Mr. Miller has been advised of our referenced material sets that are required, and the examiners' names and addresses where each set is to be mailed.

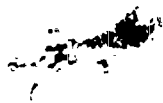

The facility management is responsible for providing adequate space and facilities in order to properly conduct the written examinations. The enclosure, "Administration of Operator Licensing Written Examinations" describes our requirements for conducting these examinations. Mr. Miller has also been informed of these requirements.

All operator and senior license applications should be submitted at least 30 days prior to the first examination dates so that we will be able to review the training and experience of the candidates, process the medical certifications, and prepare final examiner assignments after candidate eligibility has been determined.
