**TVA External Message. Please use caution when opening.**

The NRC staff would like to have a clarification call on the following items. Please note the staff is not available Thursday or Friday of this week.

Info need 001-e

- TVA to include a statement on water users in the vicinity of the site as well as plant operation impacts.

Info need 001-f

- Staff review of 2004 ROS does not completely clarify IN# 001-f regarding the information in the SSAR Section 2.4.1.2.1. For example, the SSAR says on page 2.4.1-3 (4th paragraph) that the 2004 ROS resulted in “changes in minimum flow requirements for each project” but the Preferred Alternative in ROS Appendix B suggests that Melton Hill Dam had no changes. (The Preferred Alternative was adopted in the ROD.)

Info Need #31

- Need to identify individual users for alternative conceptual model.
- Discuss alternative conceptual model inclusion in SSAR Section 2.4.13.

Thanks
