Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Denton:

Re: Turkey Point Units 3 & 4
Docket No. 50-250, 50-251
Emergency Preparedness Exercise Exemption Request

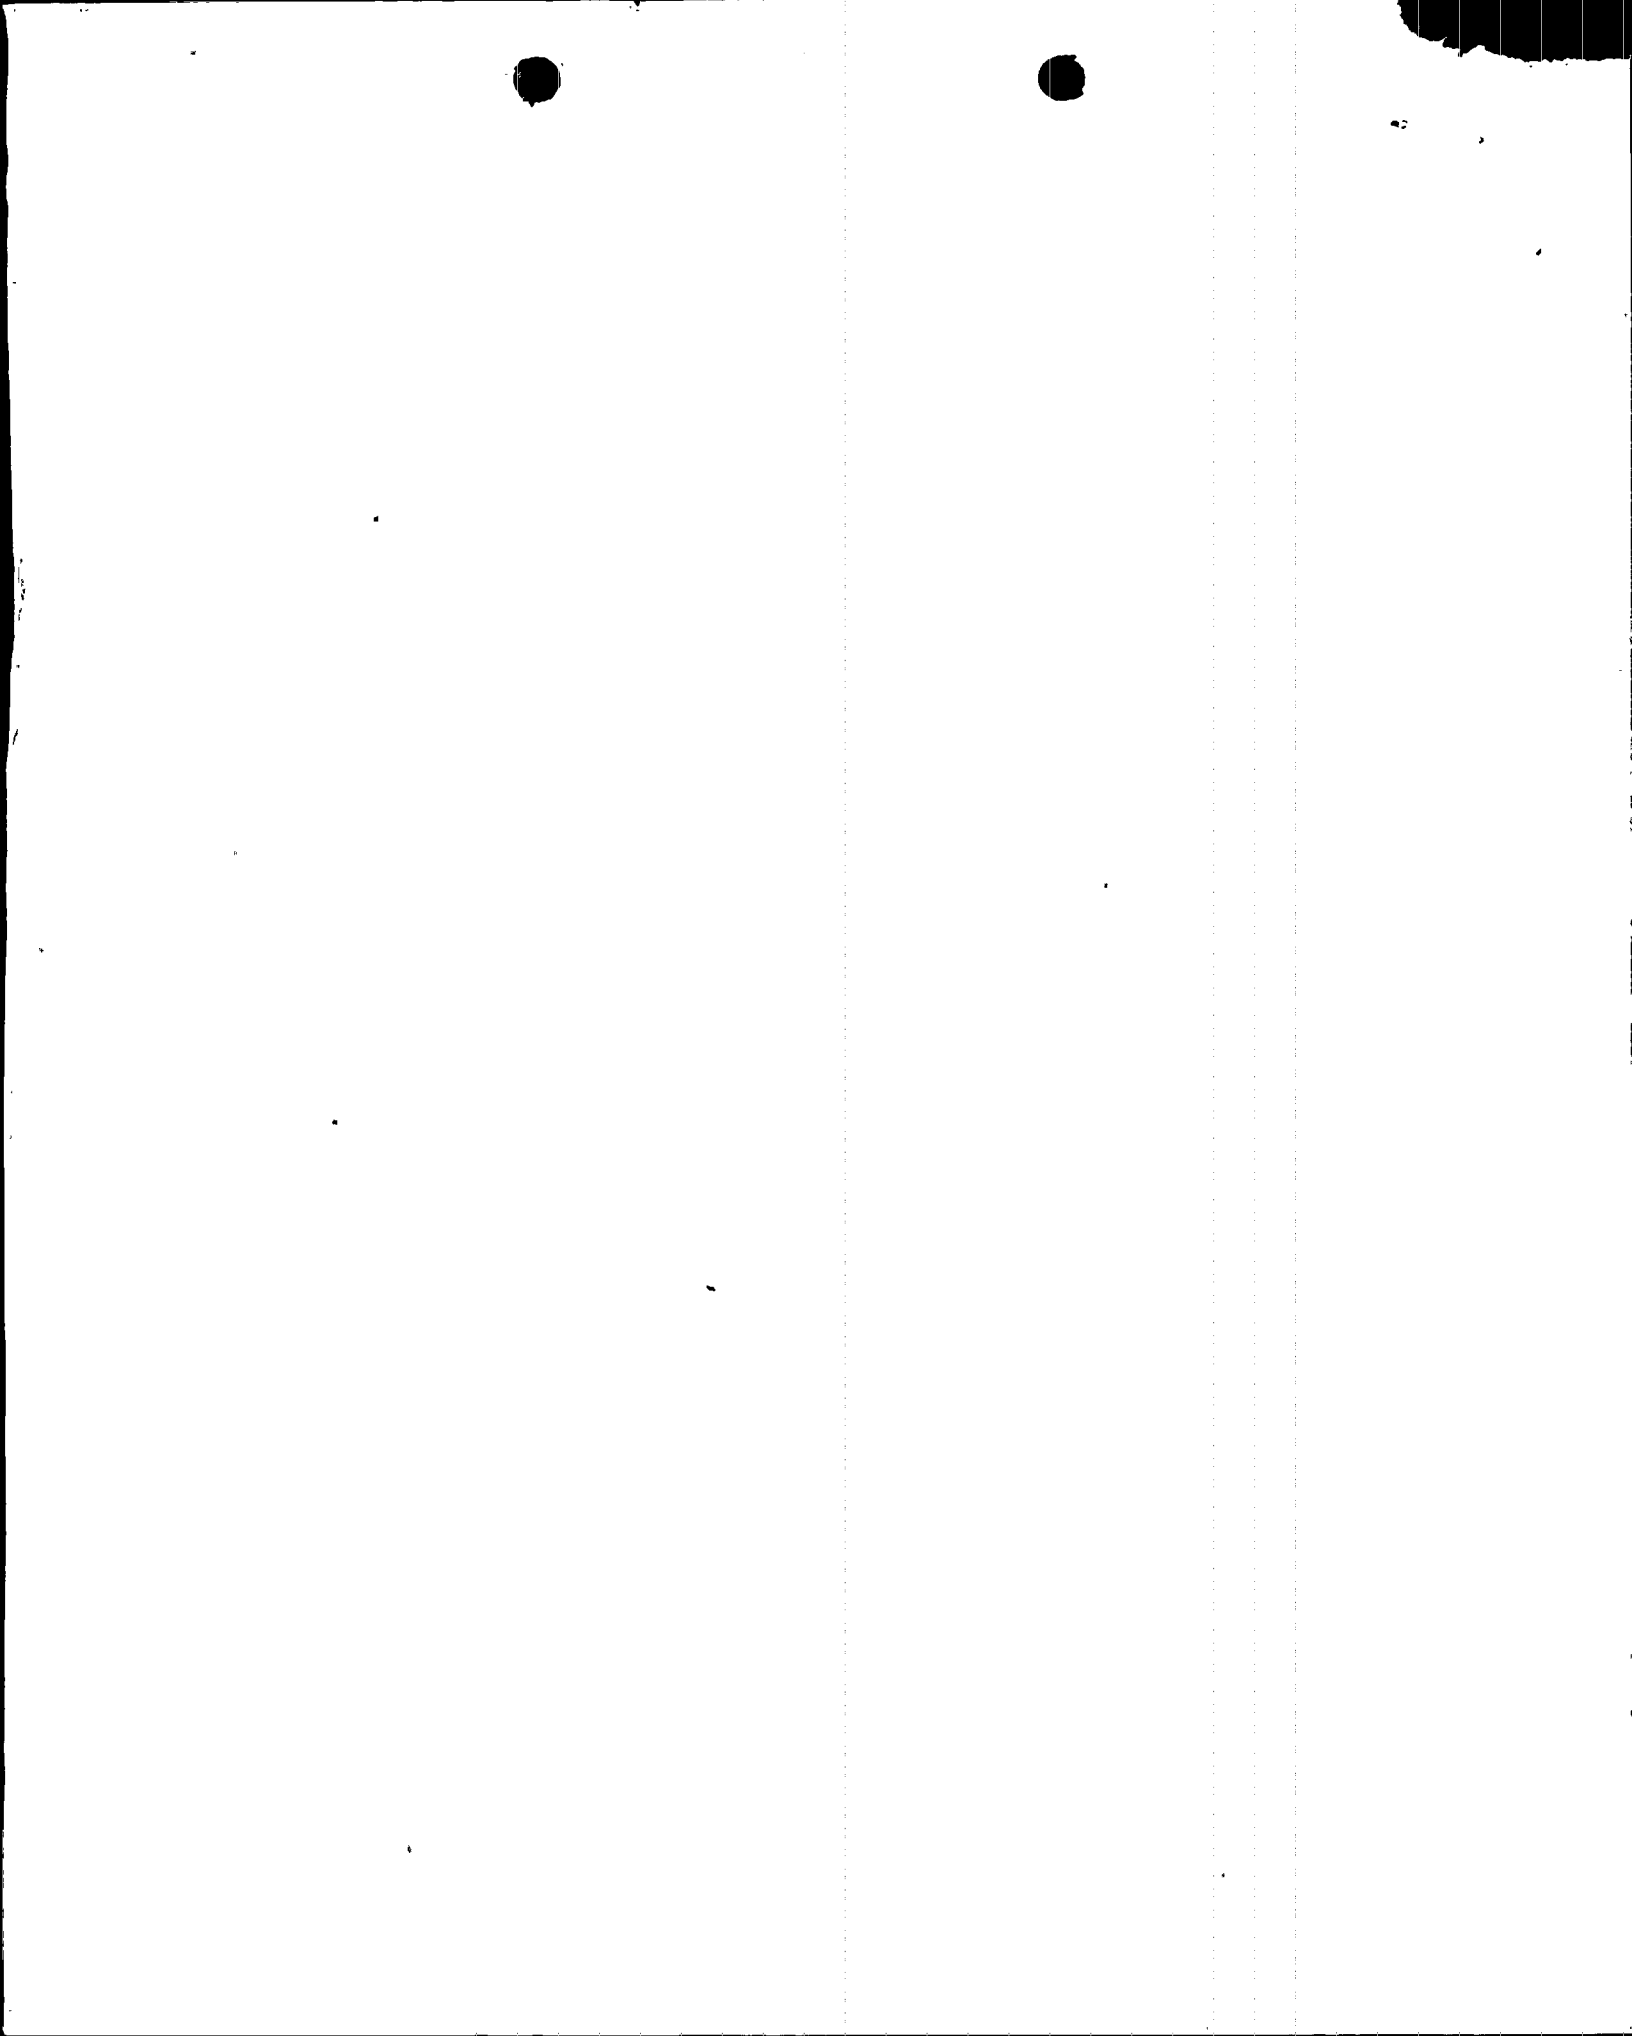

Florida Power and Light requests an exemption from the annual exercise requirement of 10 CFR 50, Appendix E, Sections IV.F with respect to the 1984 annual exercise for the Turkey Point Plant. The exemption requested consists of a shift of the annual exercise to the late fall period of the year on a continuing basis. For 1984, all participants have agreed to an exercise date of November 7.

Exercises for the Turkey Point Plant were conducted in the fall time period during the years of 1975 through 1981. Under the upgraded emergency planning regulation, the first full scale exercise of state and local plans for the Turkey Point Plant was on March 14-15, 1982 and a full scale local exercise with participation of all major state agencies was conducted on June 9, 1983. The Federal Emergency Management Agency has evaluated the state and local plans for the Turkey Point Plant and the two exercises conducted with them and has determined that emergency preparedness for the Turkey Point Plant is adequate (see enclosed letter from Samuel W. Speck, FEMA to William J. Dircks, USNRC).

The return to a fall annual exercise for the Turkey Point Plant will benefit the state emergency preparedness program by providing a more even distribution of exercise related work throughout the year. This is especially true for 1984 due to the impact of the Federal Field Exercise which was conducted in Florida in March. Also, the emergency management directors of Dade and Monroe Counties have determined that the Turkey Point Exercise date should avoid conflict with the summer hurricane season due to the recurring demands this period entails annually. We have determined that approval of this exemption request would not effect emergency preparedness at Turkey Point and therefore would not endanger life or property or the common defense and security and would not be contrary to the public interest. This request, therefore, complies with the requirements of 10 CFR 50.12 (Specific exemptions).
