 Group Vice President

 Post Office Box 14000

Gentlemen:

We have received a copy of your application dated May 21, 1984, which was filed with the Office of Nuclear Reactor Regulation (ONRR) for review. This application proposed certain Technical Specification changes relating to safety related snubbers for the Turkey Point Plant Unit Nos. 3 and 4. Although your application stated a Class III fee (\$4,000) and a Class I fee (\$400) would be forwarded under separate cover, these fees have not been received by us.

Based on information provided by the ONRR staff as a result of their preliminary review of your application, it has been determined that a Class II fee (\$1,200) and a Class I fee (\$400) are appropriate since the changes are administrative in nature and involve a duplicate unit. Therefore, you are requested to remit the sum of \$1,600 to this office. If the ONRR staff's final review of your application reveals that these fees are not appropriate, you will be notified and any necessary adjustments will be made.

For your information, a brief discussion of fees for applications for license amendments and other requests filed before and after June 20, 1984, is contained in Enclosure 1 to this letter. If you have any questions regarding fees, please contact us on 301-492-7225.

Sincerely,

Original Signed by:
