Ray

I think we are probably going to need to stay with your first suggestion to move the fuel cycle discussion. I was not aware that the PNNL author of the transportation EIS section is not available on Tuesday. (He is joining via phone on Thursday). By the way, there is only one info need for fuel cycle so it should not take long. We can almost squeeze it anywhere (maybe even can squeeze it in right before starting transportation).

I am ccing the PNNL deputy team lead, Kim Leigh, on this. I am out the rest of today but am back in early tomorrow and I will check in with her and we should have something worked out before COB tomorrow.

Thanks for working out the rest of the schedule for your folks. Let us know if there is something else that needs to be shifted. I will be out next week, but Pat and Kim will keep the effort moving on audit schedule details.

Tami,

Tuesday Morning is really full and has an additional conflict with the TVA SME. Is Tuesday afternoon acceptable?

TVA External Message. Please use caution when opening.

Thanks Ray. we will work with our deputy team lead (our master scheduler) and get an adjusted schedule back to you. Is it just as good if we moved the transportation to Tuesday morning?

Subject: [External_Sender] Audit 3 Potential Schedule Conflicts

All,

I believe we have resolved all of the potential resource SME conflicts except this one on Thursday. Is it possible to move Uranium discussions to the afternoon? Or a different day....

8:00 - 12:00 AM	Transportation Discussions with TVA	TVA Knoxville	Palmrose	Maheras via phone
8:00 - 12:00 AM	Uranium Fuel/Rad Waste Discussions with TVA	TVA Knoxville	Hickey	Smith, Mart

Thanks!

Ray Schiele
