FLORIDA POWER & LIGHT COMPANY
JUN 1 1 1985

L-85-227

Office of Nuclear Reactor Regulation
Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Proposed License Amendment
Containment Integrity

By letter dated January 28, 1985, and supplemented on March 2, 1985, FPL submitted proposed revisions to the Turkey Point Units 3 and 4 Technical Specifications related to containment systems. In the January 28, 1985 submittal, FPL proposed certain changes to clarify the requirements for operability of the containment air lock during the performance of surveillance and/or other testing of the air lock. To further clarify the intent of that specification (T.S. 3.3.4), FPL has added "containment air lock" prior to "surveillance and/or testing requirements". A revised page 3.3-2 reflecting this change is attached.

If you have any questions, please call us.

Very truly yours,

J. W. Williams, Jr.
Group Vice President
Nuclear Energy
