Office of Nuclear Reactor Regulation
Attention: Mr. Steven A. Varga, Chief
Operating Reactors Branch #1
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D. C. 20555

Dear Mr. Varga:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 & 50-251
Preliminary ATWS Implementation Schedule

Florida Power & Light Company has developed preliminary schedules for implementation of the modifications required under 10 CFR 50.62. Based on these preliminary schedules it will not be possible to implement the modifications by Winter of 1986 for Turkey Point Unit 3, nor by Winter of 1987 for Turkey Point Unit 4 in accordance with 10 CFR 50.62(d) requirements.

Our schedules are contingent upon NRC approval of the generic design developed by the Westinghouse Owners Group. The schedules are also contingent upon NRC review and approval of the plant specific designs.

FPL is available at your convenience to present the preliminary schedules and to establish final schedules that are mutually agreed upon by the Commission and FPL.

Very truly yours,

J. W. Williams, Jr.
Group Vice President
Nuclear Energy
