NOVEMBER 28 1986  
L-86-475

Office of Nuclear Reactor Regulation  
Attention: Mr. D. G. McDonald, Project Manager  
PWR Project Directorate #2  
Division of PWR Licensing - A  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Dear Mr. McDonald:

Re: Turkey Point Units 3 and 4  
Docket Nos. 50-250 and 50-251  
Proposed License Amendment  
Upgrade of Technical Specifications

By letter dated September 29, 1986 (L-86-393) Florida Power & Light Company (FPL) submitted a request to amend Appendix A of Facility Operating Licenses DPR 31 and DPR 41 to upgrade the current plant Technical Specifications and include, within limitations, the guidance of NUREG-0452, Standard Technical Specifications for Westinghouse Pressurized Water Reactors. As agreed to at the November 18, 1986 meeting with the NRC Staff, the September 29, 1986 submittal shall be considered a draft document. Once agreement is reached on the technical content, FPL will resubmit it's request to amend the Turkey Point Units 3 and 4 Operating Licenses.

Attached are proposed specifications and supporting documentation for the Electrical Power Systems, which were not included in our September 29 submittal. Also attached are replacement no significant hazards evaluations for Technical Specifications 2.2.1 and 3/4.1.1.1, and instructions for insertion of this update into the previous submittal. As discussed with you, 20 copies of the proposed specifications are being submitted to support your review.

The attached Electrical Power Systems Technical Specifications have been reviewed by the Turkey Point Plant Nuclear Safety Committee and the FPL Company Nuclear Review Board.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial statements and for providing a clear audit trail. The document also notes that proper record-keeping is a key component of good internal control.

2. The second part of the document focuses on the role of the accounting department in the overall business operations. It highlights the need for the accounting team to work closely with other departments to ensure that all financial data is captured and recorded accurately. The document also discusses the importance of timely reporting and the use of technology to streamline the accounting process.

3. The third part of the document provides a detailed overview of the accounting cycle. It outlines the ten steps involved in the cycle, from identifying the accounting entity to preparing the financial statements. The document also includes a flowchart that illustrates the sequence of these steps and the flow of information between them.
