Dear Mr. Woody:

Subject: International Atomic Energy Agency (IAEA) Safeguards License  
Condition - Turkey Point Unit 4

Your letter dated February 20, 1987, requested that Facility Operating License DPR-41 be amended to add license conditions. These license conditions implement IAEA Safeguards at Turkey Point Unit 4, incorporating by reference Facility Attachment No. 12, Safeguards Agreement between USA and IAEA, dated October 1, 1986. We are processing your request and expect to issue the amendment by April 10, 1987.

I would like to reaffirm our understanding that all the provisions in Facility Attachment No. 12 are in effect during the interim period until the amendment is issued. We have discussed with you and your staff some problems and concerns we have encountered with the IAEA program at Turkey Point and have been assured corrective actions have been taken to preclude their reoccurrence.

I appreciate your responsiveness in taking corrective actions and if our understanding that the provisions of the Attachment are in place is correct, you need not respond to this letter. If there are any questions please contact me.

Sincerely,
