Juno Beach, FL 33408

Gentlemen:

SUBJECT: NRC INSPECTION REPORT NOS. 50-250/87-10 AND 50-251/87-10

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by D. R. Brewer on February 9 - March 9, 1987. The inspection included a review of activities authorized for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed inspection report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selected examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

Within the scope of the inspection, no violations or deviations were identified.

Your attention is directed to Paragraph 11 in the report and the concerns that address the adequacies of engineering evaluations.

In accordance with Section 2.790 of the NRC's "Rules of Practice," Part 2, Title 10, Code of Federal Regulations, a copy of this letter and its enclosures will be placed in the NRC Public Document Room.

Should you have any questions concerning this letter, please contact us.

Sincerely,

Original signed by V. L. Brownlee

Luis A. Reyes, Director
