Gentlemen:

SUBJECT: NOTICE OF VIOLATION
(NRC INSPECTION REPORT NOS. 50-250/89-09 AND 50-251/89-09)

This refers to the Nuclear Regulatory Commission (NRC) inspection conducted by A. Tillman on February 27 - March 3, 1989. The inspection included a review of activities authorized for your Turkey Point facility. At the conclusion of the inspection, the findings were discussed with those members of your staff identified in the enclosed Inspection Report.

Areas examined during the inspection are identified in the report. Within these areas, the inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observation of activities in progress.

The inspection findings indicate that certain activities appeared to violate NRC requirements. The violation, references to pertinent requirements, and elements to be included in your response are described in the enclosed Notice of Violation.

In accordance with 10 CFR 2.190(d) and 10CFR 73.21, safeguards activities and security measures are exempt from public disclosure. Therefore, the enclosures to this letter with the exception of the report cover page, which presents a nonexempt summary, will not be placed in the NRC Public Document Room.
