Reference PNO-II-89-46 dated June 15, 1989

Extensive drug screening effort was initiated on June 16, 1989 in response to the FBI arrest of one (non-nuclear) Turkey Point employee for drug distribution. As of 6:00 p.m., June 22, 1989 the licensee has tested 915 employees, and has received 456 test results from the preliminary tests. While no confirmed results have been "positive", the initial onsite screen has caused 7 samples to be referred to the offsite laboratory for confirmatory testing. One mid-level supervisor has refused the test and has been suspended. Miami, FL. and local media coverage has been extensive and is expected over the weekend. FBI investigation is continuing. State of Florida Attorney General has also shown interest in criminal investigation.

Unit No. 3 is in Mode 3 (restarting) and Unit No. 4 is at 50 percent power. Region II maintaining very close cognizance of FBI and licensee efforts.

This information is current as of 11:00 a.m. June 23, 1989.
