Dear Mr. Goldberg:

SUBJECT: TURKEY POINT UNITS 3 AND 4 - TRANSMITTAL OF NOTICE OF WITHDRAWAL OF PORTION OF APPLICATION FOR AMENDMENTS (TAC NOS. 63038 AND 63039)

The purpose of this letter is to transmit to you the enclosed "Notice of Withdrawal of Portion of Application for Amendments to Facility Operating Licenses." By letter dated July 17, 1990, you requested withdrawal of a portion the June 5, 1989 amendment request to replace the current Technical Specifications with revised Technical Specifications for the Turkey Point Plant, Units 3 and 4. The portion of the amendment request that you wish to withdraw pertains to the composition list of the Company Nuclear Review Board (CNRB).

By letter dated February 7, 1990, as supplemented April 24, 1990, you applied for license amendments to remove the specific composition list for the CNRB, and to redefine a quorum of the CNRB. A proposed finding of no significant hazards consideration was noticed by the NRC on March 21, 1990 (55 FR 10532) and no public comments were received. Amendment Nos. 136 and 131, issued to you on July 3, 1990, granted your requested changes. Therefore, you now request withdrawal of the proposed changes concerning the CNRB identified in the June 5, 1989 letter, so that the revised Technical Specifications will reflect the changes approved in Amendment Nos. 136 and 131. The staff has determined that your request should be granted.

The Commission has filed the enclosed "Notice of Withdrawal of Portion of Application for Amendments to Facility Operating Licenses" with the Office of the Federal Register for publication.

Sincerely,

Original signed by

Gordon E. Edison, Sr. Project Manager
Project Directorate II-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
