Per your request below via email, here is the information for the two concerns:

- 1) List the 35.300 radioisotopes used at the facility, quantities and the date when the radioisotopes were last used.

1 131 used on the following dates:

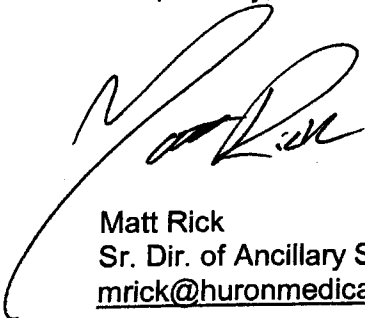

- a. 6-23-15 11.99 mCi
- b. 1-24-12 10.11 mCi
- c. 9-17-10 20.40 mCi
- d. 4-17-09 10.10 mCi
- e. 12-8-08 19.63 mCi
- f. 5-16-08 15.15 mCi

- 2) Please confirm that no 35.300 material is present at the facility (the material was decayed in storage, transferred to an authorized recipient etc.).

No 1 131 stored at facility, we receive unit doses when ordered from Triad Nuclear Pharmacy

If there is additional information needed, please let me know.

Respectfully,
