

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

September 25, 1991

Docket Nos. 50-250
and 50-251

Mr. J. H. Goldberg
President - Nuclear Division
Florida Power and Light Company
P.O. Box 14000
Juno Beach, Florida 33408-0420

Dear Mr. Goldberg:

SUBJECT: EMERGENCY TELECOMMUNICATIONS SYSTEMS SITE SURVEY AT TURKEY POINT
UNITS 3 AND 4

The U.S. Nuclear Regulatory Commission (NRC) is currently evaluating an upgrade of the Emergency Telecommunications System (ETS) utilized by all NRC licensed nuclear power plants, the five NRC Incident Response Centers, the NRC Operations Center, and the NRC Technical Training Center. As part of this evaluation, the NRC has contracted with I-NET, Incorporated (I-NET) to perform a site survey at your location. The survey will consist primarily of discussions between the I-NET survey team and your telecommunications and emergency preparedness representatives regarding the site's communications capabilities and the feasibility of upgrading your ETS. Additionally, the I-NET survey team would like to visit the site communications room(s), control room, technical support center, NRC resident inspector's office, and, if appropriate, the emergency operations facility. The I-NET survey team will require approximately three to four hours onsite.

Ms. Annette Sourmany, a representative from I-NET, will be contacting your emergency preparedness coordinator to schedule the visit at a mutually agreed upon date and time within the September through October 1991 time frame. Ms. Sourmany can be contacted at the following address:

I-NET, Incorporated
Attn: Ms. Annette Sourmany
6430 Rockledge Drive
Bethesda, Maryland 20817
(301) 564-6943
