Gentlemen:

Re: Turkey Point Units 3 and 4
Docket Nos. 50-250 and 50-251
Request for Additional Information on
B&W Owners WF-70 Program and Appendix G
Analysis (Tac Nos M68249 and M55042)

The Nuclear Regulatory Commission, by letter dated September 5, 1991, requested additional information regarding the B&W Owners WF-70 Program and Appendix G Analysis. Enclosed please find the additional information as requested. Please note that the original cutting drawings requested in question 2 were not available and are not included in the response. Florida Power and Light is attempting to obtain the drawings and should provide them in a supplementary response by January 15, 1992. The information provided in the enclosure is proprietary to, and provided by, the B&W Owners Group and should be withheld from public disclosure in accordance with paragraph (b) (4) of 10 CFR 2.790.

Should there be any questions, please contact us.

Very truly yours,

T. F. Plunkett
Vice President
Turkey Point Nuclear

AFFIDAVIT OF JAMES H. TAYLOR

- A. My name is James H. Taylor. I am Manager of Licensing Services for B&W Nuclear Technologies, a participating member in the B&W Utility Owners Group (B&WOG) and as such I am authorized to execute this Affidavit.
- B. I am familiar with the criteria applied by the Nuclear Regulatory Commission (NRC) to determine whether certain information of the B&WOG is proprietary.
- C. In determining whether a B&WOG document is to be designated as proprietary information, an initial determination is made by the Unit Manager who is responsible for originating the document as to whether it falls within the criteria set forth in Paragraph D hereof. If the information falls within any one of these criteria, it is designated as proprietary by the originating Unit Manager. This initial determination is reviewed by the cognizant manager at the next higher organizational level. If the document is designated as proprietary, it is reviewed again by me to assure that the regulatory requirements of 10 CFR Section 2.790 are met.
- D. The following information is provided to demonstrate that the provisions of 10 CFR Section 2.790 of the Commission's regulations have been considered:
- (i) The information has been held in confidence by the B&WOG. Copies of the document are clearly identified as proprietary.
 - (ii) The following criteria are customarily applied by the B&WOG in a rational decision process to determine whether the information should be designated as proprietary. Information may be designated as proprietary if one or more of the following criteria are met.
 - a. Information reveals cost or price information, commercial strategies, production capabilities, or budget levels of the B&WOG or its suppliers.

- b. The information reveals data or material concerning the B&WOG research or development plans or programs of present or potential economic advantage to the B&WOG.
- c. The use of the information by a non-member would decrease his expenditures, in time or resources, in designing, producing, or marketing a similar product.
- d. The information consists of test data or other similar data concerning a process, method or component, the application of which results in an economic advantage to the B&WOG.
- e. The information reveals special aspects of a process, method, component or the like, the exclusive use of which results in an economic advantage to the B&WOG.
- f. The information contains ideas for which patent protection may be sought.

The document(s) listed on Exhibit "A", which is attached hereto and made a part hereof, has been evaluated in accordance with the B&WOG procedures with respect to classification and has been found to contain information which falls within one or more of the criteria enumerated above. Exhibit "B", which is attached hereto and made a part hereof, specifically identifies the criteria applicable to the document(s) listed in Exhibit "A".

(iii) The document(s) listed in Exhibit "A", which has been made available to the United States Nuclear Regulatory Commission was made available in confidence with a request that the document(s) and the information contained therein be withheld from public disclosure.

(iv) The information is not available in the open literature and to the best of our knowledge is not known by other organizations with interests and activities similar to those of the B&WOG.

(v) Specific information with regard to whether public disclosure of the information is likely to cause economic harm to the position of the B&WOG, taking into account the value of the information to the B&WOG; the amount of effort or money expended by the B&WOG developing the information; and the ease or difficulty with which the information could be properly duplicated by others is given in Exhibit "B".

E. I have personally reviewed the document(s) listed on Exhibit "A" and have found that it is considered proprietary by the B&WOG because it contains information which falls within one or more of the criteria enumerated in Paragraph D, and it is information which is customarily held in confidence and protected as proprietary information by the B&WOG. This report comprises information utilized by the B&WOG in its business which afford the B&WOG an opportunity to obtain an economic advantage over those who may wish to know or use the information contained in the document(s).

 James H. Taylor
