Florida Power and Light Company
ATTN: Mr. J. H. Goldberg
President - Nuclear
P. O. Box 14000
Juno Beach, FL 33408-0420

Gentlemen:

SUBJECT: SUBJECT: EMERGENCY RESPONSE DATA SYSTEM (ERDS) MEETING

Recently a new rule was published in 10 CFR Part 50 which affects the manner in which data is passed from nuclear power plants to the NRC Operations Center during accidents classified at the ALERT or higher emergency classification. The rule specifically requires the implementation of the Emergency Response Data System (ERDS) by all power reactor licensees. In June 1991, you were forwarded a copy of NUREG-1394 (Rev. 1) which outlines the ERDS implementation program.

Among the NRC responsibilities in the implementation of ERDS at a utility is to provide a "site visit" during which site specific implementation needs may be discussed. These meetings are conducted by the NRC ERDS Project Officer and the ERDS implementation contractor. Utilities are generally represented by the personnel assigned to staff the project. This normally includes representatives of licensing, emergency planning, and computer staff.

In order to provide the most efficient performance of site visits, the NRC Project Officer and the ERDS contractor will provide a week long series of ERDS meetings at each of the NRC regional offices. Region II will be visited during the dates of October 1-4, 1991. The format for these visits will be structured so that no utility will be required to spend more than one day at the regional office. A copy of the daily schedule and agenda is enclosed. As you can see, the program will begin with a presentation of the program and a short demonstration followed by individual licensee meetings with the ERDS Project Officer and the implementation contractor.

Mr. Jim Hufham of my staff has been in contact with Mr. Tom Grozan to discuss a date and time to meet with Florida Power and Light Company. We have scheduled the meeting for Wednesday, October 2, 1991, at 1:00 p.m. Enclosure 2 provides directions and a map that we hope will help you locate the Region II office.

ENCLOSURE 1

DAILY AGENDA

- 1:00 - 3:00 p.m. Introduction
 ERDS Presentation
- 3:00 - 5:00 p.m. FP&L/NRC Meeting

TOPICS

ERDS Presentation

I. Introduction

- A. Brief History
- B. System Requirements Analysis

II. Project Status

- A. NRC ERDS System
- B. Plants On-line

III. Implementation Schedule

- A. Utility Events
- B. Halliburton NUS Events
- C. NRC Events

IV. ERDS Operations

Link Activation

V. Plant Attribute Library and Data Point Library Information

- A. PAL Description
- B. DPL Description

VI. Brief ERDS Demonstration Using Regional Workstation

Utility Meetings

- I. Introduction of Responsible Parties
- II. Utility Questions Concerning Project
- III. Detailed Discussion of Utility Implementation Concept
- IV. Detailed DPL Discussion
- V. Projected Utility Schedule

ENCLOSURE 2

U. S. Nuclear Regulatory Commission - Region II

Located at:
101 Marietta Street NW
29th Floor

IF YOU ARRIVE IN ATLANTA BY PLANE WE RECOMMEND THE FOLLOWING:

Take the MARTA TRAIN that has a station inside the Atlanta Airport near the baggage area. Take the North train to the MARTA Peachtree Center Station. Once at the MARTA Peachtree Center Station, follow the signs to the Westin Peachtree Plaza Hotel. The Westin Hotel is easy to recognize because it is a glass, round, 76 story structure. The NRC - Region II Office is located three "short" blocks directly west of the hotel. The Region II Office is located in a 36 story, glass, square building.

IF YOU ARRIVE IN ATLANTA BY AUTOMOBILE WE RECOMMEND THE FOLLOWING:

Take any interstate (I-20, I-75, I-80) to downtown Atlanta. Once you are in the downtown area, look for the Westin Peachtree Plaza Hotel. This hotel is an easy "point of reference" because it is 76 stories and round. Once you have located the hotel, go three blocks directly west to the Region II Office (101 Marietta Street). There are plenty of parking garages around the 101 Marietta Street Building.

U. S. Nuclear Regulatory Commission - Region II
