Washington, D.C. 20555

Gentlemen:

Re: Turkey Point Units 3 and 4
Docket No. 50-250 and 50-251
Core Operating Limits Report

By letter dated November 12, 1993, the NRC issued Amendments 156/150 to Facility Operating License No. DPR-31 and DPR-41 for Turkey Point Units 3 and 4, respectively. The amendments consisted of changes to the Technical Specifications to implement a Relaxed Axial Offset (RAOC) methodology for axial flux difference control and to relocate cycle-specific parameter limits from the Technical Specifications to a Core Operating Limits Report (COLR). In accordance with Technical Specification 6.9.1.7, the enclosed Core Operating Limits Report is provided for Florida Power and Light Company Turkey Point Units 3 and 4. These curves are applicable for the current operating cycles of Unit 3 Cycle 13 and Unit 4 Cycle 14.

If you have any questions, please contact us.

Very truly yours,

T. F. Plunkett
Vice President
Turkey Point Nuclear
