

UNITED STATES  
NUCLEAR REGULATORY COMMISSION

WASHINGTON, D.C. 20555-0001

Docket Nos.: 50-250  
50-251

Mr. J. H. Goldberg  
President, Nuclear Division  
Florida Power & Light Company  
P.O. Box 14000  
Juno Beach, FL 33408-0420

April 18, 1994

Dear Mr. Goldberg:

SUBJECT: TURKEY POINT UNITS 3 & 4 OPERATIONAL SAFEGUARDS  
RESPONSE EVALUATION (TAC NOS. M88440 AND M88441)

This letter conveys the results and conclusions of the Operational Safeguards Response Evaluation (OSRE) conducted by the NRC's Office of Nuclear Reactor Regulation at Turkey Point's Units 3 & 4 from January 10 through 13, 1994.

The OSRE team was composed of NRC personnel assisted by personnel from the U.S. Army. One purpose of the OSRE program is to evaluate a licensee's ability to respond in a contingency to an external threat by focusing on the interactions between operations and security in establishing priorities for protection of equipment and on the defensive strategies used. The OSRE also includes a safety/safeguards interface review to assure that safeguards measures do not adversely affect safe operation of the facility.

The OSRE conclusions are documented in the enclosed report (Part I, Operational Safeguards Readiness Review; and Part II, Safety/Safeguards Interface Review). This enclosure, which contains safeguards information of a type specified in 10 CFR 73.21, will not be placed in the Public Document Room, and must be protected against unauthorized disclosure.

The drills, exercises, and demonstrations observed by the team and the results of interviews conducted by the team indicated weaknesses in four areas that should be addressed. The weaknesses that warrant your attention are identified in the report as concerns. The team also observed some items of minor significance which are provided for your consideration. We expect that Florida Power and Light will review the discussions and observations for appropriate action. The team also concluded that effective provisions were in place to assure that safeguards measures did not adversely affect the safe operation of the facility.

SG - Violation of protection requirements for SAFEGUARDS INFORMATION subject to CIVIL and CRIMINAL Penalties.

Enclosure contains SAFEGUARDS INFORMATION Upon removal of enclosure this document is DECONTROLLED.

Mr. J. H. Goldberg

- 2 -

The enclosed report does not convey any new regulatory requirement. Its findings have been considered with respect to your ability to meet the general performance objective and requirements of 10 CFR 73.55(a). We request that you review the report and provide a response to this office within 60 days after receiving this letter. Your response should specifically address each of the concerns identified in the report. Except for those findings identified as observations, your response should include a discussion of why you believe corrective action is not warranted for any of those findings for which you do not intend to take action.

This letter affects one respondent and, therefore, is not subject to the Office of Management and Budget review under Public Law 96-511.

Sincerely,

for Original signed by G. Lainas  
 Steven A. Varga, Director  
 Division of Reactor Projects - I/II  
 Office of Nuclear Reactor Regulation

Enclosure:  
 Operational Safeguards Response Evaluation  
 (Part I, Operational Safeguards Readiness Review;  
 Part II, Safety/Safeguards Interface Review)

Enclosure contains SAFEGUARDS INFORMATION  
 Upon removal of enclosure this document  
 is DECONTROLLED.
