---

Dear Dr. Reimer,

The Nuclear Regulatory Commission (NRC) has accepted for detailed technical review the Army's amendment application for Source Materials License No. SUC-1593, (Davy Crockett Depleted Uranium- Possession Only license). The Army proposes to change the sediment sampling location at three military installations, to include the Pohakuloa Training Area (PTA), located on the island of Hawai'i.

An opportunity to intervene in this proceeding was published in the Federal Register on December 11, 2017. You may access the Federal Register Notice at: <http://www.nrc.gov/reading-rm/doc-collections/fedreg/notices/index.html>. I have also attached a pdf version of the notice for ease of reference.

If you have any questions, please contact me.

Thank you,

A

Amy Snyder, Senior Project Manager
