

October 31, 1994

Mr. J. H. Goldberg
President - Nuclear Division
Florida Power and Light Company
Post Office Box 14000
Juno Beach, Florida 33408-0420

SUBJECT: TURKEY POINT UNITS 3 AND 4 - NRC BULLETIN 90-01, SUPPLEMENT 1, LOSS OF FILL OIL IN TRANSMITTERS MANUFACTURED BY ROSEMOUNT (TACs M85454 AND M85455)

Dear Mr. Goldberg:

By letters dated March 3, 1993, May 17, 1993 and April 13, 1994, you responded to NRC Bulletin 90-01, Supplement 1. The staff, with the assistance of its contractor, EG&E Idaho, Inc., reviewed your submittals and finds your response acceptable. The enclosed Safety Evaluation documents our review and concurrence with the contractor's findings presented in Technical Evaluation Report (TER), EGG-DNSP-1487, which is also enclosed.

Please note that the TER states that you should include additional transmitters in classification 1.f to maintain confidence in their ability to detect impending failures.

This concludes our review of this issue and, accordingly, we are closing TAC Nos. M85454 and M85455.

Sincerely,
(Original Signed By)
Richard P. Croteau, Project Manager
Project Directorate II-2
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation

Docket Nos. 50-250 and 50-251
