SUBJECT: TURKEY POINT UNITS 3 AND 4 - EVALUATION OF THE THIRD TEN-YEAR
INTERVAL INSPECTION PROGRAM PLAN, REVISION 0 AND ASSOCIATED
REQUESTS FOR RELIEF (TAC NOS. M87725 AND M87726)

Dear Mr. Goldberg:

The NRC staff, with technical assistance from its contractor, the Idaho National Engineering Laboratory (INEL), has reviewed and evaluated the Turkey Point, Unit Nos. 3 and 4 Third Ten-Year Interval Inservice Inspection (ISI) Program Plan, Revision 0 and the majority of the associated requests for relief. You submitted this program plan by letter dated September 9, 1993, and additional information was provided by letter dated May 31, 1994. Table 1 of our Safety Evaluation summarizes the relief requests.

We found no deviations from regulatory requirements or commitments in your Turkey Point Nuclear Power Plant, Units 3 and 4, Third Ten-Year Interval ISI Program Plan. Our Safety Evaluation and the INEL Technical Evaluation Report are enclosed.

We have not completed our review of relief requests 04, 09, and 10. Our interim approval of relief requests numbers 04 and 10 was documented by letter dated March 31, 1994. The interim approval remains effective until our final determination is made on these relief requests.

TAC Nos. M87725 and M87726 remain open pending completion of the remaining reviews.

Sincerely,

(Original Signed By)

David B. Matthews, Director
Division of Reactor Projects - I/II
Office of Nuclear Reactor Regulation
