Subject: INCIDENT INVOLVING AN FPL EMPLOYEE

The resident inspector was notified by the licensee at approximately 10:00 a.m. on May 18, 1995, of an incident involving an FPL employee at Turkey Point threatening to commit suicide at his residence in Miami, Florida. The employee, who works as an electrician (non-supervisory and non-licensed) within the maintenance department, did not report to work on the morning of May 18. Following unsuccessful attempts to contact him over the phone, the licensee dispatched an individual to determine his status. The employee's residence was found to be surrounded by law enforcement personnel. The employee apparently was holding a gun and was threatening to commit suicide. The employee also stated that he had taken drugs. The licensee has revoked the employee's plant access. Additionally, efforts have been initiated to review work that may have been performed by the employee for the last 90 days. Further, the licensee reviewed the fitness-for-duty data on the employee and determined that he had no history of positive drug test results. The employee had not revealed any aberrant or abnormal behavior during his last contact with personnel at Turkey Point on May 17, 1995. As of 1:00 p.m. May 18, 1995, the employee has been taken into custody and transported to Jackson Memorial Hospital. The employee may have been distraught on May 18 over recent personal and family problems. There was media present at the individual's residence. The licensee has made a notification to the NRC.

The State of Florida has been notified. No press release is planned by the licensee.

This information is current as of 4:00 p.m. on May 18, 1995.
