1. The first part of the document discusses the general situation of the company and the results of the previous period. It mentions that the company has achieved significant growth and that the management team is committed to maintaining this momentum.

2. The second part of the document provides a detailed analysis of the company's financial performance. It highlights the company's strong revenue growth and its ability to manage costs effectively.

The following table shows the company's financial performance over the last three years. The data indicates a consistent upward trend in both revenue and profit.

Year	Revenue	Profit	Assets	Liabilities	Equity
1976	100	20	120	80	40
1977	120	25	140	90	50
1978	150	30	170	100	70

The table above shows that the company's revenue has increased by 50% over the three-year period, while its profit has grown by 50%. This demonstrates the company's strong financial performance and its ability to generate value for its shareholders.

Attention: Mr. Darrell G. Eisenhut
Division of Licensing
U. S. Nuclear Regulatory Commission
Washington, D.C. 20055

Dear Mr. Eisenhut:

Re: St. Lucie Unit No. 1 and
Turkey Point Unit Nos. 3 & 4
Docket Nos. 50-335, 50-250 & 50-251
Fire Protection

This letter is in response to your letters of January 6, 1983, January 14, 1983, and February 18, 1983, concerning the Draft Safety Evaluations on Appendix R Exemption Requests for Turkey Point Units 3 & 4 and St. Lucie Unit 1. Also, this letter confirms the agreements reached during a meeting with your Mr. R. H. Vollmer on February 23, 1983, at St. Lucie Unit 2.

During this meeting it was agreed that FPL would supplement the fire protection proposals to reflect recent work showing additional compliance with the requirements of Appendix R. The supplements will be submitted on or before April 8, 1983. Where alternate shutdown is proposed, a submittal will be made on or before October 7, 1983.

It is our understanding that following submittal of the supplements, discussions will be held in Bethesda. Subsequent site reviews will then be conducted to resolve any remaining concerns. Upon reaching agreement on all modifications and exemption requests, implementation schedules will be developed and submitted for review.

Should you have any questions please contact us accordingly.

Very truly yours,

Robert E. Uhrig
Vice President
Advanced Systems & Technology
