Florida Power and Light Company
ATTN: Mr. T. F. Plunkett
President - Nuclear Division
Nuclear Energy Department
P. O. Box 14000
Juno Beach, FL 33408

SUBJECT: NRC INTEGRATED INSPECTION REPORT NOS. 50-250/96-11 and 50-251/96-11
AND NOTICE OF VIOLATION

Dear Mr. Plunkett:

On September 28, 1996, the NRC completed a safety inspection at your Turkey Point Units 3 & 4 reactor facilities. The enclosed integrated report presents the results of that inspection.

During the 6-week period covered by this inspection period, your conduct of activities at the Turkey Point facilities was generally characterized by safety-conscious operations, sound engineering and maintenance practices, and excellent plant support activities. We are concerned, however, about a violation of NRC requirements that was identified. NRC inspectors identified that inadequate design control measures resulted in two fire areas being outside 10 CFR 50, Appendix R, Fire Protection requirements.

The violation is cited in the enclosed Notice of Violation, and the circumstances surrounding the violation are described in detail in the enclosed report. Please note that you are required to respond to this letter and should follow the instructions specified in the enclosed Notice when preparing your response. The NRC will use your response, in part, to determine whether further enforcement action is necessary to ensure compliance with regulatory requirements.

In accordance with 10 CFR 2.790 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be placed in the NRC Public Document Room (PDR).

Sincerely,

Orig signed by Kerry D. Landis

K. D. Landis, Chief
Reactor Projects, Branch 3
Division of Reactor Projects
