UNITED STATES NUCLEAR REGULATORY COMMISSIONFLORIDA POWER AND LIGHT COMPANYTURKEY POINT UNIT NOS. 3 AND 4DOCKET NOS. 50-250 AND 50-251NOTICE OF PARTIAL DENIAL OF AMENDMENT TO FACILITY OPERATING LICENSES
AND OPPORTUNITY FOR HEARING

The U.S. Nuclear Regulatory Commission (the Commission) has denied a portion of a request by Florida Power and Light Co. (licensee), for an amendment to Facility Operating License Nos. DPR-31 and DPR-41 issued to the licensee for operation of the Turkey Point Plant, Unit Nos. 3 and 4, located in Dade County, Florida. Notice of Consideration of Issuance of these amendments was published in the FEDERAL REGISTER on June 2, 1999.

The purpose of the licensee's amendment request was to revise the Technical Specifications (TS) to correct the TS Index, remove inconsistencies, and make administrative changes. The NRC staff has concluded that a portion of the licensee's request, related to the proposed deletion of dates for approved security plans, cannot be granted. The basis of the denial is detailed in the safety evaluation related to Amendment Nos. 203 and 197 dated December 20, 1999.

By _____, the licensee may demand a hearing with respect to the partial denial described above. Any person whose interest may be affected by this proceeding may file a written petition for leave to intervene.

A request for hearing or petition for leave to intervene must be filed with the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, Attention: Rulemakings and Adjudications Staff, or may be delivered to the Commission's

Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC, by the above date.

A copy of any petitions should also be sent to the Office of the General Counsel, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, and to Mr. Mitchell Ross, General Counsel, Florida Power and Light Company, P.O. Box 14000, Juno Beach, Florida, 33408-0420, attorney for the licensee.

For further details with respect to this action, see (1) the application for amendment dated April 26, 1999, (2) Amendment Nos. 203 and 197 to Facility Operating License Nos. DPR-31 and DPR-41, and (3) the Commission's related safety evaluation.

These documents are available for public inspection at the Commission's Public Document Room, the Gelman Building, 2120 L Street, NW., Washington, DC. Publically available records will be accessible electronically from the ADAMS Public Library component on the NRC Web site, <http://www.nrc.gov> (the Electronic Reading Room).

Dated at Rockville, Maryland, this 20th day of December 1999.

FOR THE NUCLEAR REGULATORY COMMISSION

Herbert N. Berkow, Director
Project Directorate II
Division of Licensing Project Management
Office of Nuclear Reactor Regulation
