All,

Thank you for taking the time today to speak with Jessie and myself. Here are links to previous biological opinions and concurrence letters that NMFS has issued to the NRC:

- Biological Opinion for continued operation and license renewal of Indian Point Nuclear Generating Units 2 and 3 in Buchanan, New York. January 30, 2013. Agencywide Documents Access and Management System (ADAMS) Accession No. [ML13032A256](#).
- Biological Opinion for license renewal of Salem Nuclear Generating Station, Units 1 and 2, and Hope Creek Generating Station in Hancocks Bridge, New Jersey. July 17, 2014. ADAMS Accession No. [ML14202A146](#).
- Concurrence that continued operation of Brunswick Steam Electric Plant, Units 1 and 2, in Southport, North Carolina, is not likely to adversely affect the Atlantic sturgeon. August 21, 2012. ADAMS Accession No. [ML12234A395](#).
- Concurrence that continued operation of Surry Power Station, Units 1 and 2, in Surry, Virginia, is not likely to adversely affect the Atlantic sturgeon. July 13, 2012. ADAMS Accession No. [ML13115A917](#).

As Jessie mentioned at the end of the call, we will be in touch soon to let you know when we will have information responsive to your questions. Thanks,

Briana

Briana/Jessie,

FYI.

Here's the article about shortnose sturgeon spawning in the Congaree.

Sarah,

I wanted to provide two figures for our call today. It might help if we can all look at the same pictures if we need to ask questions/provide answers.

The first one is of the site property boundary, shown below. The second figure, which is attached, shows the surface water monitoring stations, including the discharge point at the Congaree River.
