NOTIFICATION OF ACTION COMPLETION FOR CONFIRMATORY ORDER EA-17-077 – ITEM B.1

On November 21, 2017, the Nuclear Regulatory Commission (NRC) issued Confirmatory Order EA-17-077 to Dominion Energy Nuclear Connecticut, Inc. (DENC)¹. Section V of the Confirmatory Order requires DENC to complete Item B.1 within thirty days of issuance of the Confirmatory Order, and to notify the NRC in writing that the actions are complete within thirty days after the completion of the action. DENC completed Item B.1 on November 27, 2017. A summary of the completed actions for Confirmatory Order EA-17-077, Item B.1 is provided as an attachment to this letter.

If you have any questions concerning this matter, please contact Michael Whitlock at (804) 273-3123.

Sincerely,

A handwritten signature in black ink that reads "Dan Stoddard".

Daniel G. Stoddard
Senior Vice President and Chief Nuclear Officer
Dominion Energy Nuclear Connecticut, Inc.

SUMMARY OF COMPLETED ACTION FOR CONFIRMATORY ORDER EA-17-077

On November 21, 2017, the Nuclear Regulatory Commission (NRC) issued Confirmatory Order EA-17-077 to Dominion Energy Nuclear Connecticut, Inc. (DENC)¹. Section V of the Confirmatory Order requires DENC to complete Item B.1 within thirty days of issuance of the Confirmatory Order, and to notify the NRC Region I Administrator in writing that the actions are complete within thirty days after the completion of the action. DENC completed Item B.1 on November 27, 2017. Item B.1 and a summary of the actions taken are provided below:

Item B.1:

Within 30 days of the date of the Confirmatory Order, Dominion shall communicate this issue to all personnel at Millstone and other Dominion Energy Inc. nuclear sites. The communication (which may be verbal or via written communication) shall specify that falsification of records is unacceptable and shall also explain the specific actions staff are expected to take when unable to fulfill NRC requirements. Within 30 days of completing this action, Dominion shall inform the NRC that the action is complete by sending a letter to the Region I Administrator and shall make the content of the communication available to the NRC for review during an inspection.

Summary of Actions Taken for Item B.1:

The Senior Vice President and Chief Nuclear Officer (CNO) of Dominion Nuclear issued an email communication to all personnel at Millstone and other Dominion Energy Inc. nuclear sites (Surry, North Anna and Kewaunee Power Stations, and Innsbrook Technical Center) on November 27, 2017. Additionally, on November 28, 2017, supervisors were provided a copy of the message to post for employees who may not have readily available access to email. The Nuclear Beta Blog, an electronic communication platform used by the CNO to communicate and share information with the Dominion nuclear employees, was also updated to include the communication. The communication discussed the importance of transparency and ethics in the performance of actions, emphasized that falsification of records is unethical and will not be tolerated, and provided guidance on specific actions to take if an individual feels that he or she is unable to complete work as expected and required. A copy of the communication is available to the NRC for review during an inspection.

¹ In a letter dated June 15, 2017 (ML17171A232), Dominion Nuclear Connecticut, Inc. notified the NRC that the company was changing its name to Dominion Energy Nuclear Connecticut, Inc. and requested that the NRC amend the Millstone operating licenses to reflect the name change. The amendment request is currently under review by the NRC.
