**NEW JERSEY POLLUTANT DISCHARGE ELIMINATION SYSTEM
DISCHARGE MONITORING REPORT
SALEM GENERATING STATION
NJPDES PERMIT NJ0005622**

Dear Sir:

Attached is a copy of the Discharge Monitoring Report for the Salem Generating Station for the month of September 2017. The original report has been submitted to the NJDEP via electronic DMR. This copy is a resubmittal of the DMR that was mailed to the NRC on October 23, 2017, and was returned to Salem generating Station on 11/30/2017 due to an incorrect zip code. A copy of the original envelope has been enclosed.

This report is required by and prepared specifically for the New Jersey Department of Environmental Protection (NJDEP). It presents only the observed results of measurements and analyses required to be performed by the above agencies. The choice of the measurement devices and analytical methods are controlled by the EPA and the NJDEP, not by the company, and there are limitations on the accuracy of such measurement devices and analytical techniques even when used and maintained as required. Accordingly, this report is not intended as an assertion that any instrument has measured, or that any reading or analytical result represents the true value with absolute accuracy, nor is it an endorsement of the suitability of any analytical or measurement procedure.

If you have any questions concerning this report, please feel free to contact me at (856) 339-1138.

Sincerely,

A handwritten signature in black ink, appearing to read "Jenny Shelton", with a long horizontal line extending to the right.
