DOMINION NUCLEAR CONNECTICUT, INC.
MILLSTONE POWER STATION UNITS 2 AND 3
NOTIFICATION OF ACTION COMPLETION FOR CONFIRMATORY ORDER
EA-17-077 – ITEMS A.1 AND A.2

On November 21, 2017, the Nuclear Regulatory Commission (NRC) issued Confirmatory Order EA-17-077 to Dominion Energy Nuclear Connecticut, Inc. (DENC)¹. Section V of the Confirmatory Order requires DENC to complete Items A.1 and A.2 within thirty days of issuance of the Confirmatory Order, and to notify the NRC in writing that the actions are complete within thirty days after the completion of the action. DENC completed Item A.1 on December 5, 2017, and Item A.2 on December 11, 2017. A summary of the completed actions for Confirmatory Order EA-17-077, Items A.1 and A.2 is provided as an attachment to this letter.

If you have any questions concerning this matter, please contact Michael Whitlock at (804) 273-3123.

Sincerely,

Gerald T. Bischof
Vice President Nuclear Operations – Fleet Performance
Dominion Energy Nuclear Connecticut, Inc.

DOMINION NUCLEAR CONNECTICUT, INC.**

SUMMARY OF COMPLETED ACTION FOR CONFIRMATORY ORDER EA-17-077

On November 21, 2017, the Nuclear Regulatory Commission (NRC) issued Confirmatory Order EA-17-077 to Dominion Energy Nuclear Connecticut, Inc. (DENC)¹. Section V of the Confirmatory Order requires DENC to complete Items A.1 and A.2 within thirty days of issuance of the Confirmatory Order, and to notify the NRC Region I Administrator in writing that the actions are complete within thirty days after the completion of the action. DENC completed Item A.1 on December 5, 2017, and Item A.2 on December 11, 2017. A summary of the actions taken is provided below:

Item A.1:

Within 30 days of the date of the Confirmatory Order, Dominion shall prepare a full inventory of all in-service and out-of-service weapons on-site. Within 30 days of completing this action, Dominion shall inform the NRC that the action is complete by sending a letter to the Region I Administrator and shall make the inventory list available to the NRC for review during an inspection.

Summary of Actions Taken for Item A.1:

A full inventory of the in-service and out-of-service weapons was completed on December 5, 2017. The weapons were accounted for and weapon serial numbers were verified with the Security Inventory Management System (SIMS) weapons database. A SIMS weapons database inventory list was created showing the inventory of in-service and out-of-service weapons as of December 5, 2017. A copy of the inventory list is available to the NRC for review during an inspection.

Item A.2:

Within 30 days of the date of the Confirmatory Order, Dominion shall prepare a report of the maintenance status of all in-service weapons that are on-site as of the date of the Confirmatory Order. The report shall specify the dates on which each weapon was last test-fired, cleaned, serviced, and inspected. Within 30 days of completing this action, Dominion shall inform the NRC that the action is complete by sending a letter to the Region I Administrator and shall make the report available to the NRC for review during an inspection.

¹ In a letter dated June 15, 2017 (ML17171A232), Dominion Nuclear Connecticut, Inc. notified the NRC that the company was changing its name to Dominion Energy Nuclear Connecticut, Inc. and requested that the NRC amend the Millstone operating licenses to reflect the name change. The amendment request is currently under review by the NRC.

Summary of Actions Taken for Item A.2:

A report of the maintenance status of the in-service weapons that were on site as of the date of the Confirmatory Order (November 21, 2017) was developed from the SIMS weapons database. This report specifies when each weapon was last test-fired, cleaned, serviced, and inspected. A copy of the report is available to the NRC for review during an inspection.
