Hi Justin,

Sorry for the delay. I did not realize that second file was encrypted when I uploaded it. I've fixed the document and you should be all set now.

I logged in to the portal using the NRC user name and was able to open and search both files.

Let me know if you run into any other problems.

Christine,

The staff has not been able to open the 2nd file (150252-CD-03 Rev0.pdf). We are getting an error (see below) when trying to open it. Also please make the document "searchable." This is an option on your end but its not enabled for all documents. This will help speed up the staff's review. The 1st file the staff is able to open and is reviewing it. Thanks.

Document Error

There is a problem with your request. No document has been selected, or there was a problem opening your document.

Please check your document and make sure it doesn't contain errors.

The error reported is: File has not been decrypted

Hi Justin,

The following documents have been uploaded to Certrec:

Item (1): 2182058.01 RG 1.92.pdf
Item (2): 150252-CD-03 Rev0.pdf

Information for accessing e-portal:

NRC Staff may review the files in "read only" format using the link and login credentials below.
https://portal.certrec.com/index.php?requestType=login&returnTo=https://nextera.certrec.com/readingroom&sId=3210

CAUTION - EXTERNAL EMAIL

As we talked today, as well as at the audit entrance, we would like the following documents to be placed on the portal in support of the ASR audit.

(1) Provide a numerical example that demonstrates how the 100-40-40 spatial combination method is implemented. We want to see how you came up with the 100-40-40 numbers being used in the CEB calc. During the entrance call it was mentioned that multiple examples (within the CEB calc) would helpful.
(2) The following document I believe is reference [1] to the CEB calc:

Simpson Gumpertz & Heger, Inc., Criteria Document for Evaluation and Design Confirmation of As-Deformed Containment Enclosure Building at Seabrook Station in Seabrook, NH, Document No. 150252-CD-03, Revision 0, Waltham, MA, 27 July 2016.
