Mitch,

I apologize, I may have go this mixed up with another action. Please see revised message:

Dear Mr. Mathews,

By letter dated May 3, 2017, (Agencywide Documents Access and Management System (ADAMS) Accession No. ML17123A104), Exelon Generation Company, LLC (EGC, the licensee) submitted a license amendment request for Dresden Nuclear Power Station, Units 2 and 3 (DNPS). The amendment proposes to revise existing DNPS Technical Specification (TS) 5.5.12, "Primary Containment Leakage Rate Testing Program," to allow for the permanent extension of the Type A Integrated Leak Rate Testing (ILRT) and Type C Leak Rate Testing frequencies.

On December 8, 2017, the NRC provided EGC with a "DRAFT" set of RAIs regarding the ILRT extension request. On December 20, 2017, EGC and support personnel held a teleconference with NRC staff to clarify several of these RAIs.

Based on the teleconference:

- * [PRA-RAI-7.a](#) - Class II Decay Heat Removal - **DELETED**
- * [PRA-RAI-7.b](#) - Class II Decay Heat Removal - **DELETED**
- * [PRA-RAI-8](#) - Frequency of EPRI Category 3b - **DELETED**
- * [PRA-RAI-9.a](#) - Overall Baseline LERF Risk Assessment – Uncertainty - **REVISED** (see attached)*

The attached RAIs are determined to be final. As such, and as discussed during the call with you, the NRC staff is requesting EGC's response to these RAIs by **February 14, 2018**.

If you have any questions, please contact me at (301) 415-1129 or by email at Russell.Haskell@nrc.gov.

Sincerely,

Russell S. Haskell II

Russ,

I think we agreed to February 14th for the response, right?

Regards,

Mitch
