DOCKET NOS. 50-400 AND 50-401
DETAILED CONTROL ROOM DESIGN REVIEW

Dear Mr. Denton:

During a meeting with your staff on March 25, 1983, Carolina Power & Light Company (CP&L) committed to supply the NRC Staff with additional information to aid in their assessment of the Shearon Harris Nuclear Power Plant Unit No. 1 (SHNPP-1) Detailed Control Room Design Review (DCRDR). This information which was referenced in our submittal of April 15, 1983, on NRC Generic Letter 82-33, was to be submitted by June 1983, and contain the following:

1. A more detailed description of the SHNPP-1 DCRDR methods and procedures,
2. A description of the review team composition and qualifications, and
3. A description of resolution of the recommendations in the summary report.

The attached report (Attachment 1) provides this information and satisfies this commitment.

U. S. DEPARTMENT OF THE INTERIOR

U. S. GEOLOGICAL SURVEY

The SHNPP-2 Control Room will essentially replicate the Unit 1 Control Room. Thus, this DCRDR is applicable to both units.

Attachment 2 provides errata sheets to the summary report submitted on December 7, 1982 to clarify that submittal.

We trust that this information is responsive to your needs. If you require any additional information, please contact our staff.

Yours very truly,

E. E. Utley
Executive Vice President
Power Supply and
Engineering & Construction
