Harold Denton
Director of Nuclear ^{Regulator} ~~Regulatory~~ Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C., 20555

Dear Mr. Denton:

I understand that Carolina Power and Light Co. wants exemption from doing a full scale emergency evacuation practice before opening the Shearon-Harris Nuclear Plant. C.P. & L. has a miserable record on their operations already. On no account should they have the exemption! Nor should the extent of the evacuation area be reduced.

Sincerely yours,

Kenneth W. Hunt

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial system and for providing a clear audit trail. The text notes that without proper record-keeping, it would be difficult to identify and prevent fraud or errors.

2. The second part of the document outlines the specific procedures that should be followed when recording transactions. It details the steps from the initial receipt of funds to the final entry in the accounting system. The text stresses the need for consistency and attention to detail throughout the entire process.

3. The third part of the document addresses the role of technology in modern record-keeping. It discusses how digital systems can improve efficiency and accuracy compared to traditional paper-based methods. However, it also highlights the importance of proper data security and backup procedures to protect the information stored in these systems.

1. The first part of the document discusses the importance of maintaining accurate records of all transactions. It emphasizes that this is essential for ensuring the integrity of the financial system and for providing a clear audit trail. The text notes that without proper record-keeping, it would be difficult to identify and prevent fraud or errors.
