Dear Mr. Denton:

I am writing to request that you deny the request made by Carolina Power and Light (CP+L) on July 10 to hold a limited evacuation exercise for the Shearon Harris Nuclear Plant

My understanding is that Federal law requires any nuclear plant to conduct ~~an~~ ^{an} evacuation drill around the plant within a year prior to opening the facility. I feel that it is extremely important that such a drill involve the full participation of the citizens who live near the plant. These are the people to whom CP+L must demonstrate the effectiveness and adequacy of its evacuation plan. A scaled down drill would not adequately allow the population to judge the workability of the plan.

Please enforce the federal law and require
CPTL to hold a full public participation
emergency test. Only then can we know whether
the evacuation plan will truly protect us and
our families.

Sincerely,

Julie L. Graves
