Dear Sir:

I am a resident of Chatham County, North Carolina and am writing to you about the Shearon Harris Nuclear Power Plant in New Hill, N.C. My concern is with the health and safety of residents who are affected by the evacuation provisions of the "Shearon Harris Emergency Response Plan."

Our County Commissioners have questioned the adequacy of the Plan and withdrew their approval (May 27, 1986), responding to the concerns of thousands of citizens. According to a survey by a N.C. State University sociologist, 79% of the citizens approved of their action. Despite this, and as a result of promises of Carolina Power and Light to improve the Plan, the Commissions reversed their decision (July 7, 1986).

I believe it is important for the new plan to be tested to see if it really is effective and adequate.

I would like to request that the NEC compel CP&L

PDR ADDCK 05000400
H PDR

YE03
110

to conduct a Full Participation Emergency Exercise of the Replacement Plan prior to final licensing of the Shearon Harris Plant and before its commercial operation is permitted.

Thank you for your consideration in this important matter.

Sincerely,

Martha J. Diefenorf
