Dear Mr. Denton:

As a retired faculty  
member from N.C. State Univ.,  
a resident of Raleigh and a  
shareholder in C.P. & L. I write  
to express my concern about  
the safety of the Shearon Harris  
Plant. As a graduate of N.C. <sup>4507</sup>/<sub>10</sub>

State I'm sure that you  
too are concerned about Raleigh  
& the community that surrounds  
it and I know that you want

DELORE 800

what is best for them I see.  
What time here. My friend Tom  
Ellman, former head of Nuclear  
Engineering & V.P. of C.P.R., advised  
me that this plant is safe (even  
though he isn't sure what will  
happen to the water) and I have  
great respect & admiration for  
Tom; but I still hope you will  
not sign the license to let  
the plant operate. I think we  
have a very expensive mistake  
on our hands that better to  
pay the cost now than to go  
on with what can only be  
a problem for the future. It  
is unlikely that I will be

concerned for the problems but  
I am concerned for ~~the~~ my  
children and their children.

As you can see I do not  
want the plant to open, but  
at the very least we need to  
be sure that the evacuation  
plan will work if it should  
be needed. So far the tests  
have not worked very well  
and there have been two  
false alarms this year that  
C.P.S. hasn't been able to  
explain. Please make sure  
that the Emergency Evacuation Plan

in in place and under <sup>4</sup>supervision  
operation of the plant is  
authorized.

Thank you for your attention  
and for your service in  
this important position.

Yours very truly,  
Cyrus B. King
