U.S. Nuclear Regulatory Commission
Office of the Chairman
1717 H Street, N.W.
Washington, D.C. 20555

Dear Commissioner Denton:

I believe the SHEARON HARRIS EMERGENCY RESPONSE PLAN is of critical importance to the public health and safety, particularly to residents who would be affected by the evacuation provisions of that Plan.

On May 27, 1986, the Chatham County Commissioners responded to the concerns of thousands of concerned citizens, who had questioned the adequacy of that Plan's evacuation provisions, by withdrawing Chatham County's approval of the previous Plan. As a result of promises to improve the Plan made by Carolina Power and Light Company and the North Carolina Department of Crime Control and Public Safety, the Chatham County Commissioners today agreed to rejoin the effort to arrive at a satisfactory and adequate Plan.

In view of the changes proposed and presumed to be effected in the Plan previously agreed by the Company, County and the State to be inadequate, it has become all the more critical that the provisions of 10 CFR 50, Appendix E, Section IV.F.1 be fully enforced, and that the Company be required to demonstrate the effectiveness and adequacy of such Plan as may be designed to replace the previous Plan, by conducting a Full Participation Emergency Exercise prior to final licensing of the Shearon Harris plant and before its commercial operation is permitted.

Therefore I request that the NRC compel the Company to conduct a Full Participation Emergency Exercise of the Replacement Plan before operation of the Shearon Harris Plant is authorized.

WE STRONGLY URGE that you deny CP&L's request of July 10th, 1986, asking for an exemption.

Sincerely,

(Mrs.) Gladys Dupree
